

UNITED STATES POST OFFICE

**POSTAL ZONE
DIRECTORY**

DAYTON, OHIO

1958 EDITION

POSTAL DELIVERY ZONE SYSTEM

This directory has been published for your guidance in the use of the postal delivery zone numbers.

You can assist the Postal Service materially by always showing your zone number on letterheads and envelopes; by giving it at all times when supplying your address and by requesting your relatives, friends, churches, banks, lodges, other correspondents and publishers of any magazines which you receive through the mail, to be sure to include your delivery zone number as part of your address.

A list of the cities using the zone system is given on the inside back cover of this directory. Your mailing lists for cities under the zone system may be submitted to the respective postmasters, who will add the correct zone numbers without charge.

Where no house numbers are shown, the entire street is within the area of the postal zone number indicated.

When the word "out" appears after a number it signifies that the particular house number and any higher number on that particular street is within the area of the postal zone number indicated.

For example:

First Ave.:

1100-out----- 1

indicates that all house numbers on that avenue from 1100 upward are in zone 1.

For additional zone information call the post office.
